FROG AND SPIDERS

Are you tired of space games, attack and destroy games?
Looking for a light-hearted, delightful, and challenging break?
It's now available in TAITO's new, full-color, 1- or 2-player FROG AND SPIDERS video game. This game is sure to appeal to all.

Play Features

With a control lever, fire button, and jump button, maneuver your frog into position to shoot attacking spiders in their webs. Shoot them once to knock them down, twice to kill them, but watch out for the deadly snake who slithers onto the screen to bite you. Hop over the snake and eat a spider to earn extra points, but don't hop into bees on your way up or you'll lose a frog.

The game gets progressively more difficult as the player becomes more adept. The frog is forced to hop from leaf to leaf to avoid the spider and bee attacks. A pesky squirrel appears from the trees and throws acorns at your frogs. A giant spider appears at the center of the web. Only a marksman can stop him.

Play Instructions: Insert Coin(s)
Select 1 or 2 players.
Move frog horizontally and hit the spiders.
Higher scoring if you attack the spiders one by one from the top of a single vertical column.
Bonus points for protecting butterflies and dragonflies caught in the spider's web. (200 point penalty for hitting them.)
Bonus points for jumping and eating spiders.
Jump and run from snakes or you'll be swallowed.
Aim for the big spider's eyeball. He is tough! but extra points if you can get him.
Game is over when you lose all your frogs.
